## Education

### **B.A. COMPUTING | AUGUST 2021 - MAY 2025 | TEXAS A&M UNIVERSITY**

- Minor: Cybersecurity
- Relevant coursework:
  - CSCE 111: Java programming
  - CSCE 121: C++ programming
  - CodePath Cybersecurity

## Experience

### **STUDENT SECURITY ANALYST | TAMU DIVISION OF IT | SEPTEMBER 2021 - PRESENT**

- Detect and triage threats in the University's network.
- We used tools such as Splunk, Vectra, and Extrahop to analyze and detect active threats and move to mitigate them.

### **CTF DEVELOPER | TEXAS A&M UNIVERSITY CYBERSECURITY CENTER | JANUARY 2022 - PRESENT**

- Developing CTF challenges for TAMU CTF, Skill USA CTF, and TAMU Hack 2022 CTF Workshop.
- I focus on making web challenges using Docker, PHP, HTML, JavaScript, and Bash.
- I have also made pwn and reverse engineering challenges in C, C++, and Python.

## Certifications

### **GFACT : GIAC FOUNDATIONAL CYBERSECURITY TECHNOLOGIES**

- January 2022 – January 2026

### **COMPTIA Security+**

- 15% through course. Exam planned for early Summer.

## Extracurricular Activities

### **CYBERSECURITY CLUB**

- Co-lead for the weekly HTB meetings.
- Competed in multiple cybersecurity competitions including NCSF CTF, MetaCTF, NCL, TAMU CTF, Hack The Port, and CCDC.
- While I am not an officer in the club, I assist the officers in helping students who many need help during our meetings.
